Reece Computer Systems capitalizes on technology boom on San Mateo Coast to open new office

Half Moon Bay, Calif., August 8, 2006 – Reece Computer Systems today announced the opening of its new offices at 418 Main Street in Half Moon Bay, California. “We’re here to provide our customers with the highest quality local services and expertise, at a price they can afford,” said Randy Reece, President of Reece Computer Systems. “Expanding business operations will give us the opportunity to better serve our customers and increase growth.”

“Reece Computer Systems brings big company expertise to smaller companies like ours,” said Mike Laffen, President of Half Moon Bay Brewing Company. “RCS is the one-stop shop we use for all our computer needs – from Point of Sale system integration and implementation to emergency repair and support.”

Capitalizing on the wealth of expertise on the San Mateo County Coast to build the business, and the need of customers for fast, reliable technical expertise, RCS proves no one is too small to have their own, highly skilled IT department.

“Reece Computer Systems stabilized our network systems at a time when we were poised for tremendous growth and expansion. We have a diverse creative network environment, running all our own email and other application environments. We support a tremendous amount of transactions across multiple offices. RCS’s ability to provide local, responsive, and high technology service, at the right price, helped us to grow our business quickly and efficiently,” said Bryan Godbe of Godbe Corporation.

“More now than ever the coast is clear and open for business,” said Charise McHugh, Chief Executive Officer and President of the Half Moon Bay Coastside Chamber of Commerce & Visitors Bureau. “We are open for business as a technology community. With computer, telecommunications, creative services, and software enterprises growing across our community, we are certainly a hub of Silicon Valley.”

Reece Computer Systems provides competitively-priced design, implementation and support services and products for consumers and
